Children & Schools GREENGUARD® Indoor Air Quality Certified

Get the results you want without compromising your budget or the environment.

ProGreen 200 enables you to deliver an attractive, uniform finish while meeting environmental regulations and demanding budgets. Its low-VOC, low-odor formula makes it ideal for painting occupied areas while its durability and competitive pricing are perfect for new commercial construction applications. And, with availability in Primer, Flat, Low Sheen, Eg-Shel, and Semi-Gloss sheens, ProGreen 200 will satisfy your project requirements.

PRODUCTIVITY—FOR YOU AND YOUR CUSTOMERS

This low-VOC, low-odor paint meets the needs of contractors, commercial builders, property owners, and architects alike. Since it can be applied in occupied areas, scheduling hassles for you and your clients are virtually eliminated increasing productivity and profitability for everyone.

THE LOOK YOU WANT—THE DURABILITY YOU DEMAND

ProGreen 200 comes in hundreds of colors and is available in different sheens. Its hide and durability make ProGreen 200 a favorite among discerning professionals who require environmentally compliant coatings and long-lasting beauty.

And, if you're looking for enhanced hide and durability, look no further than ProGreen 200 Flat. While it still maintains the effortless, uniform application characteristics of the other sheens in the ProGreen 200 family, the flat finish delivers the superior hide you've been searching for.

INDUSTRY-LEADING INNOVATION, FROM A NAME YOU CAN TRUST

ProGreen 200's time-saving formula will meet all your requirements without compromising performance. For 140 years, Sherwin-Williams has provided innovative products and services to satisfy customers. And with 3300 stores and 1800 sales representatives across North America, personalized service is always available near the jobsite.
