INDUSTRIAL

PRO-CRYL® UNIVERSAL PRIMER

Ideal for areas where rust-inhibitive, corrosion-resistant primer is essential.

For Rust-Prone Surfaces Where Preservation is Critical

Pro Industrial™ Pro-Cryl® Universal Primer is engineered for surfaces where rust and corrosion resistance is critical. This self cross-linking acrylic primer is designed for construction and maintenance applications. As a waterbased alternative to solvent based metal primers, it can be used on all interior or exterior bare steel, aluminum and galvanized substrates. It's ideal for use on structural steel, machinery, piping or equipment found in schools, hospitals, hotels, commercial buildings and industrial sites.

Recommended Primer for All Pro Industrial™ Products

Specifically formulated, Pro Industrial™ Pro-Cryl® Universal Primer can be used as a primer under both waterbased and solvent based high-performance topcoats, including acrylic, alkyd, epoxy and urethanes. This fast-dry, fast-recoat, rust-inhibitive primer has a low temperature application — down to 40° F. It is available in off-white, gray and red oxide colors.

Convenience Meets Durability

- **Rust-Inhibitive**
- **Steel, Aluminum, or Galvanized**
- **Low VOC, Low Odor**
- **Single Component**
- **Early Moisture Resistant**
- **Fast Dry**
- **Low Temperature Application**
- **Primer for all topcoats**
- **Acceptable for use in USDA inspected facilities**

High Performance Coatings

From commercial buildings to industrial facilities, Sherwin-Williams has the most comprehensive line of high performance coatings. Our commitment to product innovation and understanding your needs has led to the introduction of Pro Industrial High Performance Coatings.

With our new line of Pro Industrial products, we have high performance coating solutions for Healthcare, Hospitality, Educational, Commercial and Industrial facilities.

Industry-Leading Innovation From A Name You Can Trust

For over 140 years, Sherwin-Williams has provided contractors like you with the innovative products and services needed to build your business. And with over 3300 stores and sales representatives across North America, personalized service is always available near jobsites.
