

Removing paint just got smarter...

...with SmartStrip™ by Peel Away®

Remove up to 15 layers of paint in a single application with Smart Strip™ by Peel Away®.

This new product from Dumond Chemicals is described as the safest, most effective and environmentally friendly method to remove virtually any coating from any surface.

Applied by brush or roller, SmartStrip is useful for removing paint on intricate carved or molded surfaces, and is effective on a variety of surfaces including wood, brick, metal, concrete, stone, plaster, or fiberglass.

The product is formulated without methylene chloride, caustics, NMP, or other toxic chemicals, and will not burn the skin. It is water-based, biodegradable, pH neutral, and has no VOCs, TAPs, or HAPs.

SmartStrip by Peel Away is available at your Sherwin-Williams store.

Save hours of set-up and cleanup time...

...with ZipWall®

ZipWall® spring loaded poles can save you countless hours of set-up and cleanup time. When you need to set up a barrier for dust or overspray,

ZipWall poles go up quick, hold tight to the ceiling with non-skid and non-marking material, and hold tight to the floor with the GripDisks™. Each kit includes two spring-loaded poles, GripDisks™ and tethered plates.

ZipWall poles are simple to use too. The barrier material easily snaps on to the top of the pole. Once they're in place at the ceiling, just lift the spring loaded pole and tuck the material underneath to ensure a tight barrier from top to bottom.

ZipWall products are available at your Sherwin-Williams store.

Dynamite™ 234...

...No. 1 clear strippable adhesive

Professional paperhangers have made Dynamite™ 234 Premium Heavy Duty Clear Wallcovering Adhesive the preferred strippable heavy duty clear in the industry.

Dynamite 234 has the highest solids of any clear wallcovering adhesive. It delivers greater wet tack and easy repositioning, and allows you to hang paperbacked vinyls while preventing the expansion of the paper backing during installation. That saves time and improves the finished job by keeping seams from buckling.

Its consistent viscosity means it delivers a more uniform coat of adhesive, eliminating the need to adjust the product on the job. Dynamite 234 dries clear and offers superior washability, saving time and improving the look of seams.

Dynamite 234 Heavy Duty Clear Wallcovering Adhesive is available at your local Sherwin-Williams store.

CS9960...

...the world's most powerful portable turbine sprayers

CAPspray, the leader in fine finish spray application, has introduced the first six-stage turbine system available anywhere.

The CS9960 10 psi six-stage system offers the highest atomizing power available in the industry.

It allows you to spray heavier coatings such as multi-color materials and latex paint with minimal to no reduction. You can also achieve wider fan patterns and faster material application rates than competitive units.

The two-speed control gives the contractor two levels of power depending upon the materials to be applied.

The CS9960 is available at your local Sherwin-Williams store.

This machine cleans dirt from most any surface and the CBA 4000 PSI model is extremely effective when you need to get the job done quickly. This unit features a belt driven pump for cleaning applications requiring 40 plus hours of use per week. Combine it with a performance-proven Honda or Subaru engine and the Mi-T-M CBA cold-water pressure washer can truly be considered an investment for your business.

Mi-T-M Corporation industrial-quality equipment is available at your local Sherwin-Williams store.

A beautiful and distinctive look...

...with Semi Transparent Decorative Stains

Saving time on the job site is critical these days. Now you can do that and create the popular look of an acid stained floor with Semi Transparent Decorative Stains from H&C® Concrete Coatings.

These stains are eco-friendly in design and easy to apply. This exciting alternative to acid staining is water-based, and can be diluted with water up to 4:1.

Available in 28 prepackaged colors that can be mixed and matched, layered or used alone, Semi Transparent Stains can be applied to any interior or exterior project, even garage floors and retaining walls. The colors can be built-up. Multiple coats can be applied immediately, with no need to wait for color reaction, and no need to neutralize the stain – more time saved.

H&C stains are available at your local Sherwin-Williams paint store. **PPC**

CBA Cold Water Pressure Washer...

...a machine that works for you

The Mi-T-M CBA series of cold-water pressure washers are ideal for someone looking for a lightweight yet industrial-quality pressure washer.
