

# PROMAR 200XP™

**PROMAR 200 XP.  
MAXIMUM PERFORMANCE  
IN ONE LESS COAT.**

**THE BEST SOLUTION FOR GETTING THE JOB DONE FASTER.**

XP MEANS:  
MAXIMUM PERFORMANCE  
IN ONE LESS COAT

**ANOTHER INNOVATIVE  
SOLUTION FROM THE  
BRAND YOU TRUST:**

- + Save a coat
- + Save time
- + Satisfy your customers
- + Flat and Egshel for residential and commercial applications

**Get great results in less time and improve your bottom line.**

ProMar 200 XP is a unique and innovative product that delivers a high-build, quality, uniform finish in one less coat. One coat of ProMar 200 XP is tougher than two coats of traditional egshel and flat finishes.

**IDEAL FOR NEW RESIDENTIAL CONSTRUCTION**

ProMar 200 XP Flat is ideal for use in new homes and satisfies the growing demand for flat finishes. Satisfy builders and homebuyers with a first-class wall appearance and a durable, burnish-resistant finish. Minimize wall preparation, get great hide, reduce callbacks and get the job done faster!

**PERFECT FOR COMMERCIAL NEW CONSTRUCTION OR RENOVATIONS**

Warehouses, chain stores, shopping centers, manufacturing facilities, airports, office buildings, retail space, commercial build-outs. Wherever you've got a lot of drywall to paint, ProMar 200 XP, Egshel or Flat, makes that high-volume, large square footage job go faster. With ProMar 200 XP, there's one less trip around the project, saving time and money. Uniformity, hold out, and flashing problems are significantly reduced compared to conventional paint products. And for those smaller spaces, it can be brushed and rolled with confidence.

**GREAT LOOKS IN HALF THE TIME**

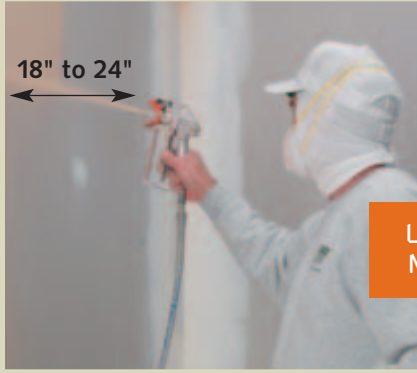

Saving time with ProMar 200 XP doesn't mean cutting corners. Because ProMar 200 XP gives you the same great quality and appearance of a traditional two-coat system in one less coat.

Utilizing unique microstructure chemistry, ProMar 200 XP is self-priming and builds quickly, providing tremendous hide. And with a timed backroll, a finish is created that minimizes drywall fuzz, evens joints, conceals imperfections, and camouflages minor surface scratches and mud porosity differences.

**MORE DURABLE THAN MOST TWO-COAT SYSTEMS**

Tests prove it. For jobs specifying two coats, ProMar 200 XP equals that specification in just one coat. And contractors who apply a primer and two topcoats will discover that this exclusive formula delivers the same performance in just two coats.

## EASY APPLICATION

**WAIT 3-5 MINUTES.**

### Step 1:

Using a 2500-3200 psi pump and a .519 tip or larger, spray on ProMar 200 XP at a minimum of 10 mils and no more than 14 mils. For best results, spray from a distance of 18" to 24". Wait 3-5 minutes.

### Step 2:

Then backroll once using a lay-off technique. Take only one swipe down with a polyester 1/2" cover using minimal pressure. This will produce a uniform surface with subtle stippling that covers surface irregularities and drywall imperfections.

## SEE THE SAVINGS FOR YOURSELF

Our testing has shown that you can expect a significant savings in time needed to complete a job. Take a look at the worksheet below for an example. You'll see what a difference ProMar 200 XP can make to your bottom line.

### The Job: 15,000 sq. ft. of commercial wall space

	Gallons Needed	Material Cost	Man Hours**	Labor Costs	Total Job Costs
Conventional eggshell 2-coats* @ 250 sq ft per gallon	96 x \$15 per gallon	\$1,440	100 x \$28 per hour	\$2,800	\$4,240
ProMar 200 XP 1 coat @ 150 sq ft per gallon	100 x \$20 per gallon	\$2,000	50 x \$28 per hour	\$1,400	\$3,400
<b>Summary</b>	<b>39% more material cost</b>	<b>\$560 additional expense</b>	<b>50% less labor</b>	<b>\$1,400 savings</b>	<b>20% less total job cost \$840 total savings</b>

\*60% less paint required for second coat \*\* Based on covering 300 sq ft per man hour  
NOTE: The above is intended as an example. Costs and savings will vary based on specific job parameters.

## INDUSTRY-LEADING INNOVATION, FROM A NAME YOU CAN TRUST

If you want to get a high-build uniform finish with less work, there's no better choice than ProMar 200 XP. And there's no better company to work with than Sherwin-Williams. For over a century, we've provided products and support to the residential and commercial markets. And with 3000 stores and 1500 reps across North America, we combine national distribution with local service.

### FIND OUT MORE ABOUT PROMAR 200 XP

For more information about ProMar 200 XP and to inquire about a product demo, contact your nearest Sherwin-Williams Store or Sales Representative or call 1-800-524-5979 to have a rep contact you.

### PROMAR 200 XP ALSO PROVIDES:

- + **Superior scrub resistance** – ProMar 200 XP still holds strong after multiple scrubs.
- + **Excellent burnish resistance** – ProMar 200 XP resists marring and stands up to high traffic.
- + **Superior hide and sheen uniformity** – Apply one coat of ProMar 200 XP to drywall without primer. It builds quickly, has great wet hide and delivers the desired sheen and durability.
- + **Virtually no overspray** – Improves your transfer efficiency, maximizing coverage.
- + **Strong bonding properties** – A totally dust-free surface is not required and prep time is reduced.
