

## FORWARD-LOOKING STATEMENTS AND OTHER INFORMATION

Our website includes information, reports, documents, videos and other content that contain certain “forward-looking statements,” as defined under U.S. federal securities laws. These statements can be identified by the use of forward-looking terminology such as “believe,” “expect,” “may,” “will,” “should,” “project,” “could,” “plan,” “goal,” “target,” “potential,” “seek,” “intend,” “aspire” or “anticipate” or the negative thereof or comparable terminology. These forward-looking statements include, but are not limited to, the sustainability- and ESG-related goals, targets and commitments presented, discussed, referenced or otherwise made available on or through our website, and are based upon current expectations, predictions, estimates, assumptions and beliefs concerning future events and conditions. Readers and viewers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company that could cause actual results to differ materially from such statements and from the Company’s historical performance, results and experience. These risks, uncertainties and other factors include such things as: with respect to our ability to successfully meet our sustainability- and ESG-related goals, targets and commitments, including within the expected timeframe, changes in laws, regulations, prevailing standards or public policy, the alignment of the scientific community on measurement and reporting approaches, the complexity of commodity supply chains and the evolution of and adoption of new technology, including traceability practices, tools and processes; general business and economic conditions; the Company’s ability to successfully integrate past and future acquisitions into its existing operations, as well as the performance of the businesses acquired; strengths of retail and manufacturing economies and the growth in the coatings industry; changes in the Company’s relationships with customers and suppliers; changes in raw material availability and pricing; adverse weather conditions or impacts of climate change, natural disasters and public health crises, including the COVID-19 pandemic; the duration, severity and scope of the COVID-19 pandemic and the actions implemented by international, federal, state and local public health and governmental authorities to contain and combat COVID-19, which may exacerbate one or more of the aforementioned and/or other risks, uncertainties and factors more fully described in the Company’s reports filed with the Securities and Exchange Commission (SEC); and other risks, uncertainties and factors described from time to time in the Company’s reports filed with the SEC. Since it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results, the above list should not be considered a complete list. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

The sustainability- and ESG-related information presented, discussed, referenced or otherwise made available on or through our website does not cover all information about our business. The inclusion of information or references, including the use of “materiality” or similar terms, should not be construed as a characterization regarding the materiality of such information to our financial results or that such information is necessarily material to investors or other stakeholders for purposes of U.S. federal securities laws.

The sustainability- and ESG-related goals, targets and commitments presented, discussed, referenced or otherwise made available on or through our website are aspirational and not guarantees or promises that such goals, targets or commitments will be achieved. In addition, historical, current and forward-looking information made available on or through our website may be based on standards and practices for measuring progress that are still developing, internal controls and processes that continue to evolve, and assumptions that are subject to change. Accordingly, such historical, current and forward-looking information or underlying assumptions may be subject to modifications in future disclosures due to such developing standards, practices and controls and processes. Readers and viewers are cautioned not to place undue reliance on such information.
