VOC (less exempt solvents):
<50 g/L; <0.42 lb/gal

As per 40 CFR 59.406 and SOR/2009-264, s.12
Volume Solids: 39 ± 2%
Weight Solids: 50 ± 2%
Weight per Gallon: 10.10 lb
Flash Point: N/A
Vehicle Type: 100% Acrylic
WVP Perms (US) grains/(hr ft² in Hg) 17.42

Mildew Resistant
This coating contains agents which inhibit the growth of mildew on the surface of this coating film.

Resilience Exterior is a high quality exterior finish with MoistureGuard™ Technology for excellent early moisture resistance. This product, which has improved resistance to early dirt pick up, is recommended for use on aluminum and vinyl siding, wood siding, clapboard, shakes, shingles, plywood, masonry, and metal down to a surface and air temperature of 35°F. VinylSafe™ paint colors allow you the freedom to choose from 100 color options, including a limited selection of darker colors formulated to resist warping or buckling when applied to a sound, stable vinyl substrate.

Color: Most colors
To optimize hide and color development, always use the recommended P-Shade primer.
Coverage: 350 - 400 sq ft/gal
@ 4 mils wet; 1.6 mils dry
Drying Time, @ 50% RH:
Touch: 2 hour
Rinate: 2 hour
Rinse: 24-48 hours
Drying and recoat times are temperature, humidity, and film thickness dependent.
Finish: 35-45 units @ 60°

Surface Preparation
WARNING! Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.

Remove all surface contamination by washing with an appropriate cleaner, rinse thoroughly and allow to dry. Scrape and sand peeled or checked paint to a surface. Sand glossy surfaces dull. Seal stains from water, smoke, ink, pencil, grease, etc. with the appropriate primer/sealer. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

Aluminum and Galvanized Steel
Wash to remove any oil, grease, or other surface contamination. All corrosion must be removed with sandpaper, wire brush, or other abrading method.

Cement Composition Siding/Panels
Remove all dirt, dust, grease, oil, loose particles, laitance, foreign material, and peeling or defective coatings. Allow the surface to dry thoroughly. If the surface is new, test it for pH, if the pH is higher than 9, prime with Loxon Concrete & Masonry Primer/Sealer.

Caulking
Gaps between windows, doors, trim, and other through-wall openings can be filled with the appropriate caulk after priming the surface.

Specifications
Aluminum & Aluminum Siding
2 cts. Resilience Exterior Latex
Concrete Block, CMU, Split face Block
1 ct. Loxon Block Surfacer
2 cts. Resilience Exterior Latex
Brick
1 ct. Loxon Conditioner
2 cts. Resilience Exterior Latex
Cement Composition Siding/Panels
1 ct. Loxon Concrete & Masonry Primer/Sealer or Loxon Conditioner
2 cts. Resilience Exterior Latex
Galvanized Steel
2 cts. Resilience Exterior Latex
Stucco, Cement, Concrete
1 ct. Loxon Concrete & Masonry Primer/Sealer
2 cts. Resilience Exterior Latex
Plywood
1 ct. Exterior Latex Wood Primer
2 cts. Resilience Exterior Latex
Steel
1 ct. All Surface Enamel Primer
2 cts. Resilience Exterior Latex
Vinyl Siding*
2 cts. Resilience Exterior Latex
Wood, Composition Board
1 ct. Exterior Oil-Based Wood Primer
2 cts. Resilience Exterior Latex

1 On large expanses of metal siding, the air, surface, and material temperatures must be 50°F or higher.
2 Not for use at temperatures under 50°F. See specific primer label for that product’s application conditions.

Other primers may be appropriate.

When repainting involves a drastic color change, a coat of primer will improve the hiding performance of the topcoat color.
The information and recommendations set forth in this Product Data Sheet are based upon tests conducted by or on behalf of The Sherwin-Williams Company. Such information and recommendations set forth herein are subject to change and pertain to the product offered at the time of publication.
