**Harmony®**
*Interior Acrylic Flat*

**B05W01051 Extra White, B05W01053 Deep Base**

### CHARACTERISTICS
- **Formaldehyde Reducing Technology** helps improve indoor air quality by reducing VOCs from possible sources like insulation, carpet, cabinets and fabrics.*
- **Odor Eliminating Technology** helps reduce common indoor odors so rooms stay fresher, longer.*
- Anti-microbial agents inhibit the growth of mold and mildew on the paint surface and inhibit the growth of bacterial odors.
- **Zero VOC formula** tinted with ColorCast Ecotoner® Colorants that do not add VOCs when tinted.
- Great hide and a durable finish that withstands frequent washings.
- Harmony's Formaldehyde Reducing Technology has been tested by a third-party laboratory.

**Color:** Most Colors

To optimize hide and color development, always use the recommended P- Shade primer.

**Coverage:** 350-400 sq.ft./gallon @ 4 mils wet; 1.7 mils dry

**Drying Time, @ 77°F, 50% RH:**
- Touch: 1 Hour
- Recoat: 4 Hour

Drying and recoat times are temperature, humidity, and film thickness dependent.

**Finish:** 0-5 units @ 85°

**Tinting with CCE only:**
- **Base:** oz. per gallon:
  - Extra White: 0-5 SherColor
  - Deep Base: 4-12 SherColor

**Extra White B05W01051**

V.O.C. (less exempt solvents): 0-5 grams per litre, 0.42 lbs. per gallon

- **Volume Solids:** 44 ± 2%
- **Weight Solids:** 62 ± 2%
- **Weight per Gallon:** 12.42 lbs
- **Flash Point:** NA
- **Vehicle Type:** 100% Acrylic
- **Shelf Life:** 36 months unopened

*The length of time Harmony actively reduces odors and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface area.

### COMPLIANCE
As of 09/10/2019, Complies with:
- **OTC** Yes
- **OTC Phase II** Yes
- **SCAQMD** Yes
- **CARB** Yes
- **CARB SCM 2007** Yes
- **Canada** Yes
- **LEED® v4 & v4.1 Emissions** Yes
- **LEED® v4 & v4.1 V.O.C.** Yes
- **EPD-NSF® Certified** Yes
- **MIP®** No

### SPECIFICATIONS

**Block:**
- 1 coat ConFlex Block Filler^  
- 2 coats Harmony Interior Acrylic

**Drywall:**
- 1 coat Harmony Interior Latex Primer  
- 2 coats Harmony Interior Acrylic

**Masonry**
- 1 coat Loxon Concrete & Masonry Primer^ or  
- 1 coat Harmony Interior Latex Primer  
- 2 coats Harmony Interior Acrylic

**Plaster:**
- 1 coat Loxon Concrete & Masonry Primer^  
- 2 coats Harmony Interior Acrylic

**Wood, Composition Board:**
- 1 coat Premium Wall & Wood Primer^  
- 2 coats Harmony Interior Acrylic

If the wood has bleeding (such as tannin or knot-holes), prime with Multi-Surface Primer.

^These primers contain less than 50 grams per litre VOC. Other primers may be appropriate.

When repainting involves a drastic color change, a coat of primer will improve the hiding performance of the topcoat color.

### APPLICATION TIPS
Make sure product is completely agitated (mechanically or manually) before use.

Priming and application of two coats at the recommended film thickness can help where hiding of a previous coating or application to new drywall is a factor.
**SURFACE PREPARATION**

**Mildew:**
Prior to attempting to remove mildew, it is always recommended to test any cleaner on a small, inconspicuous area prior to use. Bleach and bleaching type cleaners may damage or discolor existing paint films. Bleach alternative cleaning solutions may be advised. Mildew may be removed before painting by washing with a solution of 1 part liquid bleach and 3 parts water. Apply the solution and scrub the mildewed area. Allow the solution to remain on the surface for 10 minutes. Rinse thoroughly with water and allow the surface to dry before painting. Wear protective eyewear, waterproof gloves, and protective clothing. Quickly wash off any of the mixture that comes in contact with your skin. Do not add detergents or ammonia to the bleach/water solution.

**Plaster:**
Bare plaster must be cured and hard. Textured, soft, porous, or powdery plaster should be treated with a solution of 1 pint household vinegar to 1 gallon of water. Repeat until the surface is hard, rinse with clear water and allow to dry.

**Wood:**
Sand any exposed wood to a fresh surface. Patch all holes and imperfections with a wood filler or putty and sand smooth.

**SURFACE PREPARATION**

**Wood:**
Remove all surface contamination by washing with an appropriate cleaner, rinse thoroughly and allow to dry. Existing peeled or checked paint should be scraped and sanded to a sound surface. Glossy surfaces should be sanded dull. Stains from water, smoke, ink, pencil, grease, etc. should be sealed with the appropriate primer/sealer. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

**Caulking:**
Gaps between walls, ceilings, crown moldings, and other interior trim can be filled with the appropriate caulk after priming the surface.

**Drywall:**
Fill cracks and holes with patching paste/spackle and sand smooth. Joint compounds must be cured and sanded smooth. Remove all sanding dust.

**Masonry, Concrete, Cement, Block:**
All new surfaces must be cured according to the supplier’s recommendations—usually about 30 days. Remove all form release and curing agents. Rough surfaces can be filled to provide a smooth surface. If painting cannot wait 30 days, allow the surface to cure 7 days and prime the surface with Loxon Concrete & Masonry Primer.

**CAUTIONS**

**For interior use only**
Protect from freezing.
Non-photochemically reactive.

Before using, carefully read CAUTIONS on label

**CRYSSTALINE SILICA** Use only with adequate ventilation. To avoid overexposure, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air, or wear respiratory protection (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.

**WARNING!** Abrading the dried film may release crystalline silica which has been shown to cause lung damage and cancer under long term exposure. **WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. DO NOT TAKE INTERNALLY. KEEP OUT OF THE REACH OF CHILDREN.

**CLEANUP INFORMATION**
Clean spills, spatters, hands and tools immediately after use with soap and warm water. After cleaning, flush spray equipment with compliant cleanup solvent to prevent rusting of the equipment. Follow manufacturer’s safety recommendations when using solvents.
