**DESCRIPTION**

- Exterior solid color waterborne, 100% acrylic resin stain
- Use over existing exterior paint or stained deck
- Can be applied to damp surfaces, allowing surfaces to be prepped and stained in one day, not to exceed 25% moisture content
- This coating contains agents that inhibit the growth of mildew on the surface of the coating

**Use on wood:**
- Decks
- Steps
- Rails
- Spindles
- Patios
- Walkways
- Outdoor Wood
- Furniture

**Tips:** Stains tend to lap (dark lines where two freshly coated areas overlap). These tips will help avoid lap marks and keep the appearance uniform:
- Do not stain in direct sun or on a hot surface
- Stain from a dry area into the adjoining wet stain area. Keep the leading edge wet and distribute the finish evenly
- Quickly remove puddles and excess material by redistributing to dry areas or wiping up
- Use natural breaks as boundaries to divide large areas into smaller, more manageable ones
- Stain a board from end to end
- Use two coats on badly weathered or unfinished wood

* Consult composite deck manufacturer for staining procedures

**CHARACTERISTICS**

- **Color:** solid stain and exterior colors
  - A sample brushout is recommended to ensure color satisfaction.
- **Coverage:** 200-400 sq ft/gal
  - @ 4-8 mils wet; 1.2-2.5 mils dry
  - Depending on porosity and texture
  - **Note:** New wood normally requires less product than old, weathered wood. This is due to older wood being more porous than newer wood.

**Drying Time @ 50% RH:**
- temperature and humidity dependent
  - **Touch:** 77° - 90°F 1 hour 2 hours
  - 45° - 77°F 2 hours 5 hours
  - 35° - 45°F 2 hours 24-48 hours
  - **To use:** 24 hours @77°
  - Drying and recoat times are temperature, humidity, and film thickness dependent
  - Do not apply at air or surface temperatures below 35° F or when air or surface temperatures may drop below 35°F within 48 hours.

**Finish:**
- Slight sheen

**Flash Point:**
- N/A

**Tinting with CCE:**
- **Base**
  - **Extra White** 0-6 SherCOLOR
  - **Deep Base** 4-10 SherCOLOR
  - **Ultradeep Base** 10-12 SherCOLOR

**Vehicle Type:**
- Acrylic Latex

**Extra White SD7W00151**
- **VOC (less exempt solvents):** 95 g/L; 0.80 lb/gal
  - As per 40 CFR 59.406 and SOR/2009-264, s.12
  - **Volume Solids:** 31 ± 2%
  - **Weight Solids:** 46 ± 2%
  - **Weight per Gallon:** 10.55 lb

**SURFACE PREPARATION**

**WARNING!** Removal of old coatings by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.

Clean all surfaces completely with the appropriate cleaner based on the conditions. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

**SuperDeck Deck Wash**
- Mildew stain
- Algae stain
- Weathered wood (bleaches wood)
- Gray wood (bleaches wood)

**SuperDeck Revive™**
- Tannin Bleed
- Nail stain
- Weathered wood (restores color)
- Gray wood (restores color)
- Mill Glaze

**SuperDeck Stain & Sealer Remover**
- Weathered, gray wood
- Old Paint & Stain

Carefully follow all label instructions. Thoroughly rinse the surface to remove all residue and allow to thoroughly dry before coating. Test the absorbency of the wood by sprinkling water on the surface. If the water penetrates into the wood quickly, the wood is ready to finish. If the water beads up or does not penetrate, allow the wood to weather 1 to 2 weeks and test for absorbency again.

For more stain information and product choices visit www.sherwin-williams.com.

For Vertical surfaces - walls, siding, etc, use WoodScapes® Exterior Acrylic Solid Color Stain or WoodScapes® Exterior Polyurethane Semi-Transparent Stain.

### CLEANUP INFORMATION

Clean spills, spatters, hands and tools immediately after use with soap and warm water. After cleaning, flush spray equipment with compliant cleanup solvent to prevent rusting of the equipment. Follow manufacturer's safety recommendations when using solvents.

For Vertical surfaces - walls, siding, etc, use WoodScapes® Exterior Acrylic Solid Color Stain or WoodScapes® Exterior Polyurethane Semi-Transparent Stain.
