SHERWIN-WILLIAMS®
C-50
SPACKLING PASTE

PRODUCT DESCRIPTION
A heavier duty formula that provides excellent adhesion to fill and smooth cracks, nail holes and joints in drywall and plaster. Its smooth consistency makes it easy to apply with a finger, putty knife or trowel.

- Minimal shrinkage
- Water clean-up
- Indoor use
- Paintable

Properties

- Color: White
- Base: Resin Emulsion
- Viscosity: Mastic
- Weight/Gallon: 14.7 - 15.1 lb.
- Weight Solids: 75 - 79%
- Flammability: Non-flammable
- Odor: Mild when wet - no odor when dry
- Storage: Keep from freezing
- Clean-up: Water
SHERWIN-WILLIAMS®
C-50
SPACKLING PASTE

PREPARATION & USE
Before applying C-50, remove dirt, grime, dust and loose particles. Scrape or chisel out a crack or crevice bottom, making it wider than the top thus anchoring Spackling Paste. Apply Spackling Paste directly from the container using a finger, putty knife or broad knife wider than the hole to be patched. Trowel very large patches. Fill fine cracks by brushing on a water-thinned solution of C-50. For large holes or cracks, use two applications of C-50. After drying, sand smooth if desired. Keep container sealed to prevent paste from drying. Thin sparingly with water if paste becomes stiff.

PRIMING: It is always recommended to prime C-50 prior to topcoating with paint. Prime entire surface with a stain blocking primer prior to finishing coat. Due to the porosity of some substrates, the entire surface to be painted may require primer for the most uniform appearance of the topcoat.

PAINTING: When dry, Sherwin-Williams Spackling Paste C-50 can be topcoated with most commonly used paint systems.

CLEAN UP: Clean up with water.

LIMITATIONS
Recommended for interior use only. Do not apply at temperatures below 50°F (10°C). Do not use in areas subject to water immersion. Do not use on plastic or metal surfaces. Not for use as a skim coat. Do not use on expansion or butt joints. Protect from freezing.

SHELF LIFE: Sherwin-Williams C-50 Spackling Paste will exhibit a 12 month shelf life from the date of manufacture when stored at room temperature. Keep from freezing.

PRECAUTIONS
Use only with adequate ventilation. If experiencing watering eyes, headache, or dizziness, increase fresh air or wear approved respiratory protection (NIOSH/MSHA TC23C or equivalent). Do not take internally. Wash hands after using. Keep out of the reach of children. Close container after each use. Do not transfer contents to other containers for storage.
